

COMPACT PSYCHROMETER

Whirling hygrometers, also known as sling psychrometers, employ the “wet” and “dry” bulb principle to determine percentage relative humidity. They are designed to be rotated, by hand, to provide adequate and consistent ventilation of the bulbs.

The compact whirling hygrometer instrument incorporates a ‘slide rule’ type calculator to determine the % RH. The body of the instrument slides away from the handle providing complete protection when not in use.

Fitted with environmentally friendly **LO-tox™** filled glass tubes. Refill tubes available (see below).

Product features:

- Slide rule type calculator to determine the %RH
- Unique, non hazardous, mercury free filling
- Fold away into case when not in use
- Made in UK

Product specifications:

Temperature range:	-5 to +50°C or 0 to 120°F
Divisions:	0.5°C or 1.0°F
Accuracy:	+/-1
Glass filling:	LO-tox™ spirit filled
CE/ROHS/WEEE:	N/A
Hazard information (SDS):	See brannan.co.uk for information
Casing material:	ABS
Product dimensions :	Net: (closed) 36mm x 210mm x 16mm Gross: 40mm x 216mm x 19.5mm
Product weight:	Net: 90g Display box: 17g Gross: 73g
